On the cover

Maggie Rice, RN,
Taylorville Memorial Hospital Surgical Services
Dear Friends,

Access to excellent medical care is an asset for any community. While many rural hospitals across the nation are fighting to survive, Taylorville Memorial Hospital continues to thrive. This is evidenced by our Advancing Care By Design project, which will create a modern, innovative healthcare facility for the Taylorville community. Thanks to our dedicated and talented staff, physicians and volunteers, we are able to consistently provide high-quality care to our patients. Our work is supported by the community through their gifts of time, resources and talents.

At TMH, we also recognize our mission to improve the health of the people and communities we serve extends outside the walls of our hospital. We accept the responsibility to support education and public service programs that enrich quality of life and create a healthier community. We know success is a direct result of not only our own efforts, but also the support we receive from our community.

The following pages provide just a small glimpse into the work that the TMH Foundation is able to support because of the generosity of our friends and neighbors. We are truly grateful for the opportunity to serve you and will continue to strive to inspire a community culture of health.

Sincerely,

Kimberly L. Bourne  
President and Chief Executive Officer  
Taylorville Memorial Hospital

Taylorville Memorial Hospital Foundation received
$194,132 in gifts of support
from 344 donors

Every effort has been made to ensure each donor is properly recognized. Please notify us of any error or omission.
The Foundation welcomes gifts of any amount to celebrate special occasions, honor exceptional healthcare or cherish special friends and family members. Donations may be unrestricted gifts or designated for a specific purpose. Prompt notification of the gift is delivered to the honoree or the family of the deceased.

Looking to the Future

On Friday, June 29, more than 300 people gathered to celebrate a milestone in the history of Taylorville Memorial Hospital.

That morning, hospital and community officials turned over shovels of soil to mark construction of a new $60 million, 97,000-square-foot building that will replace most of the current hospital.

“This project is not really about buildings—it’s about people,” said Kim Bourne, president and CEO of Taylorville Memorial Hospital, in her remarks during the groundbreaking ceremony. “The scope, scale and size of this project are significant, but it’s really about fulfilling our mission to improve the health of the people and communities we serve.”

In 1954, the current hospital—then known as St. Vincent Memorial Hospital—was constructed by the Adorers of the Blood of Christ.

“Well, launch of this construction project, we hope to bring the Sisters’ legacy of service and quality care into a new century,” said Edgar J. Curtis, president and CEO of Memorial Health System.

The scope, scale and size of this project are significant, but it’s really about fulfilling our mission to improve the health of the people and communities we serve.

Kim Bourne, president and CEO of Taylorville Memorial Hospital

The construction will be completed in two phases. The first phase, anticipated to conclude in early 2020, will include 25 new inpatient rooms, outpatient services, therapy services, laboratory, pharmacy, a specialty clinic and a central utility plant. The second phase, targeted for an early 2021 opening, will include food and nutrition services, administrative offices and conference rooms.

O’Shea Builders, based in Springfield, is the general contractor. The architect is BSA Life Structures, based in St. Louis.
Siegrist Donation Recognizes Lifetime of Quality Care

Monte and Lucy Siegrist celebrated their 65th anniversary in 2018. Through the years, their family experienced a lifetime of quality care from TMH, which is why the couple donated two real estate lots to the TMH Foundation.

Sadly, Monte, 84, died in late fall last year, but his passion for Taylorville and TMH was evident in an earlier interview about their donation.

“We wanted to give something back to the hospital,” said Monte last spring. “It’s a small token of our appreciation for their excellent care.”

Between 1956 and 1963, all five of Monte and Lucy’s children were born at TMH (then St. Vincent Memorial Hospital). The youngest son, John, spent half of his life at the hospital before succumbing to a childhood illness on his 6th birthday.

“The care we have received there has always been outstanding—warm, personal, loving and caring,” said Lucy, 83. “I always feel God’s presence there.”

She also appreciates the convenience of hospital care close to home, especially during times when Monte required medical assistance.

The Siegrist family goes back six generations in Taylorville, back to 1894. Monte established Siegrist Builders when he was 30 and went on to serve as president of the Springfield Area Builders Association.

His company helped build more than 1,000 homes in Taylorville and beyond.

Monte and Lucy looked forward to construction of the new hospital, which broke ground in June of 2018. One of the properties they donated is adjacent to TMH and serves as a staging area for construction of the new hospital. Eventually, it will provide for parking.

“It’s an important investment in Taylorville,” Monte said.

“We always try to look forward to the future,” said Lucy. “At our age, being close to home is important.”

Thank you to the Siegrist family for their continued support of the TMH Foundation and the community.

For more information about donating to the Taylorville Memorial Hospital Foundation, call 217–824–1651 or visit TaylorvilleMemorialHospital.org/Foundation/Giving.

Employee Emergency Fund

42 donors
37 employees at MHS
$9,711 total contributions
267 PTO hours donated

Tornado Response Leads to Compassionate Gifts

In addition to meeting the health needs of the community, Taylorville Memorial Hospital is committed to the health and well-being of its employees. As a result, four years ago, the Foundation began administering an emergency fund for employees and their immediate families who experience a catastrophic event with subsequent severe financial stressors. After the Dec. 1 tornado, individuals and organizations from across the county generously donated to this fund to express their appreciation for the TMH employees who rushed to help the injured in the aftermath of the disaster.
6th Annual Signature Event

Dec. 1, more than 200 guests planned to celebrate scholarship recipients and honor donors for their support of education at the annual Signature Event fundraiser, “Gifts of the Season.” However, due to a tornado sweeping through Taylorville, the event was canceled.

The food prepared for the event was donated to the Emergency Operations Center at the Taylorville Fire Department to help support Taylorville Fire, Taylorville Police and personnel from surrounding mutual aid departments who worked through the night helping victims of the storm. Fifty meals were also provided to staff at TMH, as employees either stayed late or came in to help with the flow of patients who arrived in the Emergency Department.

Contributions continue to benefit Healthcare Careers Education Grants, which support the future of healthcare in our community by helping bright, caring and service-driven individuals pursue their healthcare degrees and return to TMH to become the next generation of caregivers for our community.

I was so impressed by the fact employees of Taylorville Memorial came in to work that night, even though they personally might have been impacted by the storm. Their commitment to not only their jobs, but the community, really struck a chord with us.

David Brummer, KSI Laboratories president
Healthcare Career Education Grants

Healthcare Career Education Grant recipients are offered the opportunity to return to our community and build careers right here at Taylorville Memorial Hospital after completing their education.

This commitment to invest in the future workforce of TMH empowers students, enhances our talent pool and strengthens the future of our community as we encourage young professionals to return to our service area and serve as the next generation of local healthcare providers.

In 2018, the TMH Foundation awarded its first $25,000 Healthcare Careers Education Grant to Kami Kingery. Kami and her husband, Eric, have made their home in Pana with their three small children. A graduate of Morrisonville High School and Lakeland College, Kingery is working towards a bachelor of science degree in nursing at Millikin University. Kami plans to join the staff at TMH after she graduates in 2021.

Applications for the Healthcare Career Education Grant are available to any aspiring healthcare professional in our region looking to return to TMH with their talent and help serve our local healthcare needs. Awards range from $10,000-$30,000 depending upon the degree being sought. Applications are due April 1 annually.

Mental Health First Aid

An invaluable training to help community members learn how to identify and respond to people showing signs of mental illness and substance abuse.

- **Certified Mental Health First Aid trainers**: 4
- **Total training classes**: 4
- **Participants**: 57
  - 21 teachers
  - Adult classes: 3
  - Youth class: 1

Stop the Bleed

This free community event provided education about how to handle life-threatening bleeding situations.

- **$8,000 Grant**: 2
- **Attendees**: 35
- **Bleeding Control Kits**: 200

TMH Initiative Earns Top Award

In 2018, a TMH-based workplace safety initiative earned the Outstanding Achievement award from the Illinois Health and Hospital Association. This initiative provided front-line staff with additional support to manage people with aggressive behavior more effectively. This includes Mental Health First Aid training, which introduces participants to risk factors and warning signs of mental health problems, builds understanding of their impact and overviews common treatments. The TMH Foundation sponsors Mental Health First Aid training participants from Christian County and the surrounding area.
Medical Technologies Fund

The TMH Foundation is proud to support Taylorville Memorial Hospital in their mission to improve health. Through gifts to the Medical Technologies Fund, we are able to aid in the purchase of medical equipment that is essential to providing high-quality patient care for our community.

In years past, the Medical Technologies Fund has aided in the purchase of a surgical scope, a device to help locate veins for IV insertions and a 3D mammography system. In 2018, the Foundation helped purchase infrared goggles that are used in the diagnosis and treatment of vertigo. This state-of-the-art device is used in vestibular therapy, which is an exercise-based program that can improve patients’ quality of life by reducing dizziness and balance problems.

Investing in Education

John H. Butterfield Agriculture and Nutrition Scholarship | 2018 Recipient: Travis Winans

The economic potential of agriculture goes well beyond farm fields and helps small communities thrive. John Butterfield spent a lifetime promoting agriculture in Illinois and around the world.

Established by the Butterfield family to honor their father for his years of hard work and dedication to agriculture, this scholarship awarded to a young person preparing for a career in agriculture or nutrition exemplifies John’s lifelong interest in education.

Carolyn M. Butterfield Trust Nursing Scholarship | 2018 Recipient: Jacob McCauley

As a charter member of the St. Vincent Memorial Hospital Foundation, Carolyn Butterfield understood the importance of a rural hospital. It was her wish to financially assist Christian County students pursuing a career in healthcare, especially in the field of nursing. Through her trust, Mrs. Butterfield has provided an endowment that funds scholarships annually for the past 17 years.

Dr. George Ferry Memorial Scholarship | 2018 Recipients: Emma Curtin and Jessica Oyler

Dr. George Ferry founded Mid-Illinois Dental Associates in 1949 and dedicated his life to his family, patients and the Taylorville community for more than 50 years. During that time, he served as a charter member of the St. Vincent Memorial Hospital Foundation and other Christian County civic organizations.

In an effort to broaden Dr. Ferry’s legacy and support local students with medical talents, two annual scholarships are awarded to Taylorville High School students pursuing an education in healthcare.
Kids Are CATCHing on in Christian County

Beginning in fall 2018, VisionWay Christian School in Taylorville became the first school in Christian County to implement the nationwide CATCH program.

CATCH stands for Coordinated Approach to Child Health, and works to prevent childhood obesity and launch kids and communities toward healthier lifestyles. With 27 percent of children in Illinois ages 10-17 clinically obese and nearly 39 percent of adults in Christian County classified as obese, it is imperative that education starts at a young age.

The TMH Foundation has invested nearly $8,000 in the CATCH program at VisionWay, which includes providing physical education equipment, classroom curriculum, training and support. In addition, the Christian County YMCA has received a $1,600 CATCH grant for their after-school and summer camp programs, to be implemented in 2019.

“We chose to bring the CATCH program to the TMH service area because we know it’s a program that works,” said Raedena Ryan, executive director of the TMH Foundation. “We recognize that while we can provide the materials and support, it is the individuals in the CATCH programs who are making real changes and creating healthy environments for the children in our community.”

The program provides positive messaging in physical education, the lunchroom, the classroom and the home to shape children’s choices about their health. By enabling children to identify healthy foods and increase physical activity, CATCH has helped decrease childhood obesity by 11 percent in areas nationwide where the program is active.

Through nearly 68 years of partnership, TMH Auxiliary members have served as advocates for the work of the hospital and provided volunteer hours and gifts of support. In 2018, the Auxiliary gifted $35,000 toward its current $52,600 pledge to support the Rehab Garden and Courtyard Beautification Project.

“Each year, the Auxiliary chooses projects that impact TMH patients, visitors and staff to help maintain a positive environment for people using or working in the hospital,” TMH Auxiliary board president Jane Davis said.

In addition to enhancing patient experiences, this milestone gift advanced the Auxiliary’s cumulative giving to over $1.5 million dollars, making them the TMH Foundation’s largest donor to date.

After his sudden passing on Aug. 1, 2018, tribute gifts of remembrance were accepted through the TMH Foundation to honor the memory of Dave Johnson, loving husband of TMH volunteer and Auxiliary liaison Debbie Johnson. Donations made in his name were used to purchase commemorative Auxiliary shirts for volunteers to wear proudly at their many events in the community.

In 2018, the TMH Auxiliary hosted numerous events as part of their mission to support TMH through service to its patients and the community and to sponsor healthcare-related projects through fundraising efforts.

Community Members Make TMH Their Volunteer Home

Our volunteer program consists of community members who work together to provide leadership and governance for the hospital, Foundation and Auxiliary boards. The volunteers support our mission by serving as advocates for the work of the hospital and provide volunteer hours and gifts of support.

Our in-house volunteers provide the compassion, warm smiles and listening ears to our patients and their families. If you are interested in learning more about volunteering at TMH, please call 217–824–1677 or visit TaylorvilleMemorial.org.
